OVERVIEW

With its hull designed by naval architects Joubert-Nivelt, the Timonier 850 guarantees good seaworthiness, excellent passage in choppy seas, outstanding directional stability and fine handling at speeds of up to 28 knots. Even at low speeds she offers excellent manoeuvrability allowing single handed use. The 850 continues the Rhea brand traditions and styling - spacious cockpit, high quality materials, reassuring large deck fittings and high quality workmanship.

The aft deck makes an amazing space for socialising or fishing; the folding teak seats ensure the space is flexible for whatever you need it to be. Access from the wheelhouse is via the aft sliding door.
